

Biodiversity

Objective: I will be able to explain what biodiversity is and the benefits of biodiversity for humans and other living things.

Date

Essential Question: What is biodiversity and why is it important?

Class: Biology

What is biodiversity?

Notes

What are the differences between ecosystem diversity, species diversity, and genetic diversity?

Describe at least 5 threats to biodiversity and explain how they reduce biodiversity.

What do we do in an attempt to preserve biodiversity? What conflicting interests must be balanced?

Summary
