

Global Effects of Human Activities

Objective: I will be able to differentiate between ozone depletion and the global climate change.

Date

Essential Question: What is the difference between ozone depletion and the global climate change?

Biology

What is ozone depletion?

Notes

Where is it happening?

What is causing it?

How do humans have a role?

What are the effects of ozone depletion?

What can be done to stop or reverse it?

What is the greenhouse effect?

Where is it happening?

What is causing it?

How do humans have a role?

What are the possible effects of global climate change?

What can be done to stop or reverse it?

Summary
