

States of Matter

Objective: I will identify the four states of matter and describe how matter moves from one state to another.

Date

Essential Questions: What are the four states of matter? How does matter move from one state to the next?

Physical
Science

Identify and describe the four basic states of matter.

Notes

How does matter move from one state to the next in both directions?

Matter is changing from which state to which in:

Melting

Freezing

Boiling

Condensation

What is happening in terms of energy in each phase change?

Summary
