

## Humans In the Biosphere

Objective: I will be able to classify resources humans use and explain the effect of their use on the biosphere.

Date:

Essential Questions: How does human activity impact the biosphere?  
How can we minimize that impact?

Class:  
Biology

What are 4 ways humans impact the biosphere?

What is the difference between renewable and non-renewable resources?

What are some examples of renewable resources?

What are some examples of non-renewable resources?

What is sustainable development?

How is sustainable development used to minimize the impacts in the 4 major ways humans impact the biosphere?

Summary
